There is a movie out entitled "Remember me". The concept is very interesting and I highly recommend it to mature audience. The movie does have some love scenes, some fighting and some off color language.

However, there is somebody who it is imperative that we do remember. Sitting through the movie I thought "this is the kind of everyday challenges that many business professionals, families and young adults face in life. So I said the prayer I always say "Lord, help me get something out of this for good and your glory". Well, God answered that prayer. I am not trying to be invasive, but I do not want to give away the plot or punch line of the movie. If I do it will ruin it for you. I suggest those of you who can handle what I said so far, to see it and then consider who else you should invite to see it also.

I am fully aware of the holier than thou aspect that some religious people have. However, I do believe God can use this movie and touch all who see it, so that it helps them now and forever. Just as I believe God used the movie "The book of Eli" with Denzel Washington, and to reach people of all ages. The key actor Robert Pattinson was the star in the movies "Twilight, New Moon, and the upcoming movie Eclipse" I believe knowingly or unknowingly, intentionally or not he has been prepared and raised up for such a time as this. Because of his fame in the above mentioned movies many people particularly those in their late teens, early 20's etc.. Will be drawn to see him in this movie.

Unlike the fantasy of vampires, werewolves and love story in the above mentioned movies. This movie "Remember me" touches real life down to earth issues. The story ends with a realization and a well needed revelation in the body of Christ that forgiving is not necessarily an input \_\_\_\_\_! You will see what I mean, hope it brings a realization to people around the world.

I received tremendous favorable response on my take of the movie "The book of Eli" I am expecting the same from this. One thing I can say without ruining the movie is this " just as Robert Pattinson was raised up for such a time as this, please grab ahold of the fact that God has prepared you also for such a time as this in fulfilling whatever it is that God has for you".

On another note, I will be ministering this Sunday 1:30 in Cocoa FL and Saturday April 4th 5pm is our next ministry buffet and then back in Orange City FL Sunday April 11th at 2:45pm. Spread the word and if you know anybody in these areas get them to the meeting. In the meantime it is encouraging of the reports that we are receiving from wonderful people around the world on how blessed they are being by watching the programs on the Heartland Broadcasting Network at [heartlandglobal.org](http://heartlandglobal.org). The response and testimonies are phenomenal and I stand in awe on how many watch the programs on a daily basis, to God be the Glory!.

A special thank you and God bless you to all our friends, partners and staff who help make it possible. You have much fruit abound to your account. At our next buffet Saturday April 3rd Pastor Charles Riettie and Pastor Brenda Walker will be bringing the word of the Lord and I will bring a short message entitled "Meet the airheads". Keep looking for these programs and others posted on the website, keep your support coming and you can do so by clicking on the donation page or mailing your offering, prayer request, testimonies and photos to Heartland Christian Center PO Box 680307 Orlando FL 32868.

Remembering in Grace,  
Pastor John D'Alesio
